3M™ Aura™ 9400+
Disposable Respirators?

▲ 3M™ Aura™ 9422+
EN 149:2001+A1:2009 FFP2 NR D
Protection factor: 10 x WEL

▲ 3M™ Aura™ 9432+
EN 149:2001+A1:2009 FFP3 NR D
Protection factor: 20 x WEL

3M™ Aura™ 9400+ Series disposable respirator has been designed to stand out in industries it needs to, such as food and pharmaceutical manufacturing.

The 9400+ Series offer a unique combination of features:

- Made without staples or small detachable parts
- Highly visible, and metal-detectable
- The ingenious 3-Panel design fits a wide range of face shapes and sizes, accommodates facial movements and makes the respirators easy to talk through
- 3M's innovative low breathing resistance filter technology combines effective filter performance with low breathing resistance so you can breathe easier throughout your working day
- An embossed top panel helps reduce the fogging of eyewear

3M™ Aura™ 9400+ respirators offer reliable and comfortable protection and are backed by the high level of support and access to technical personnel that 3M consistently provide.

3M™ Aura™ 9400+ Series Disposable Respirators

► A unique combination of features

Made without staples or small detachable parts

Staple-free

- Helps minimise contamination risks to your production

Concealed adjustable nose clip

- Kept securely in place within the layers of the respirator

Highly detectable

Metal detectable

- Embedded metal nose clip to help ensure the safety of your production

Conspicuous colour

- Bright blue for easy identification

► Protection, comfort and performance

Face & head comfort and fit

Innovative chin tab

- Makes respirator easier to fit and adjust
- Large soft nose material foam and smooth inner cover web, help to create a comfortable environment for the face
- Collapse resistant; ideal for work in hot humid environments

Breathing ease

Low breathing resistance

- Combines the benefits of 3M's electret particulate filter material with advanced low breathing resistance filter technology
- Improved breathing ease and comfort

3M™ Cool Flow™ Valve

- Effectively removes heat build up
- Provides a cooler and more comfortable wear

Convenience

Flat-fold

- Easy to store when not in use

Hygienic individual packaging

- Helps protect the respirator from contamination before use

Clear vision

Embossed top panel

- Helps reduce the fogging of eyewear

Sculpted nose panel

- Curved low profile design helps provide a good field of vision
- Improves compatibility with eyewear

► Excellent support from 3M

- 3M global knowledge and experience of respiratory protection
- Complementary range of Personal Protective Equipment
- Quality sales, technical and educational resources available
