

CHICOPEE®

DuraWipe Range

DuraWipe provides the perfect solution for all industrial tasks

Chicopee® True Confidence™

Choosing a DuraWipe ensures not only a superior clean, but also durability. That means DuraWipe outlasts any paper-based wipe. Ideal for all industrial cleaning tasks, from drying hands to cleaning machinery or wiping surfaces, DuraWipe can be used in combination with water, detergents, or solvents without facing deterioration in performance.

Spinlace® Technology

Utilising our patented APEX® technology for superior performance

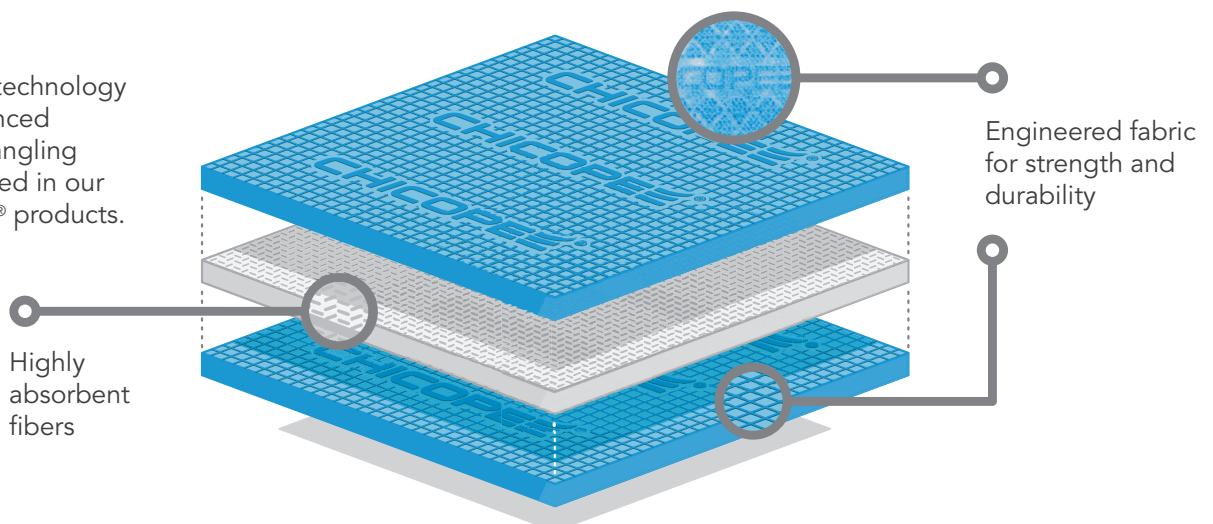

DuraWipe® Wipes are engineered to deliver cloth-like feel with improved performance versus the leading competitive industrial wiper.

The demand for single or limited-use industrial wipes has advanced significantly in recent years as a result of the desire for convenient, time saving and easy to use products that are economically efficient

Through our key partners and end customers within the Industry segment we have been able to track and respond to these changing environments. The launch of the new and improved DuraWipe quality will bring you True Confidence when going up against the toughest dirt and grimeiest grease.

Spinlace® technology is an advanced hydro-entangling process used in our DuraWipe® products.

CHICOPEE® DuraWipe Range

30%
stronger*

Up to 20%
more absorbent*

50% more
abrasion resistant*

Reduced
linting

Solvent
resistant

* Against leading
competitors

Choose DuraWipe for reliable and repeatable results in your workplace

Problems

- Paper and Airlaid wipes lack strength and cause excessive consumption, causing increased waste which leads to high disposal costs and time spent emptying bins
- Industrial areas are dealing with tough to clean surfaces that contain grease, oil and dirt which can cause high consumption of poor quality wipes, adding unneeded costs to your process
- Industrial areas often require solvents to ensure the most stubborn dirt will get removed, many cloths and wipes are not resistant to solvents and can degrade or breakdown in use

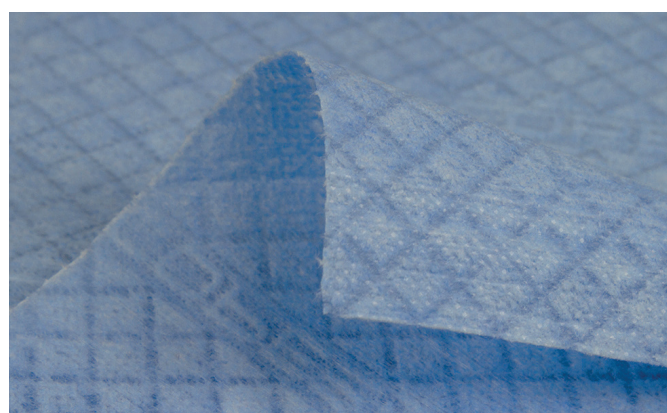

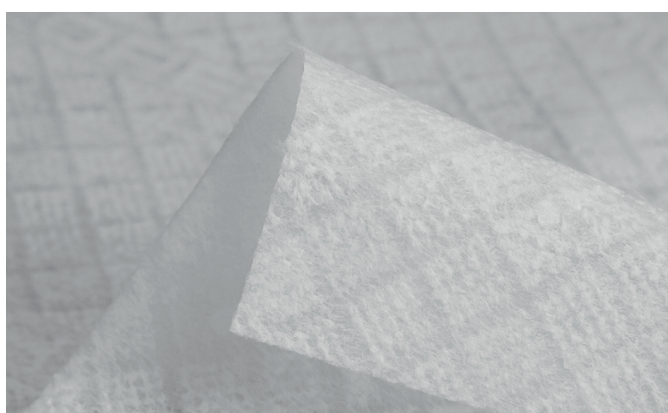

Solutions

- The DuraWipe range is strong and durable, both wet and dry making them ideal for a range of industrial cleaning tasks and are available in a range of dispensing options to best suit your task
- Thanks to their unique construction they are able to absorb like tissue, removing all fluids quickly and effectively. But providing far greater strength and durability to help you reduce waste
- Solvent resistant and therefore fully compatible with your choice of solvent without facing deterioration in performance

Your facility's cleanliness is directly related to product efficiency, machine performance, shop floor safety issues and finished product quality.

Switching to the new and improved DuraWipe products can help create a cleaner and safer work environment thanks to convenient packaging and consistent and reliable performance.
